

## A GLOBE RANGE IS SO CONVENIENT

One feature you'll like is the oven thermometer. This means perfect baking and greater fuel economy. Then there is the lay-down broiler, that makes broiling and toasting so easy, while good cooking is done in the Crystal Malleable Glass Doors that can be tilted to any Globe Range. The Globe makes other ranges seen *clumsy and out of date*. But you really ought to see one. You'll at least come in and look, won't you?

The Globe Stove & Range Company, of Kokomo, Ind., also manufactures Globe Base Burners, Globe Soft Coal Heaters and Globe Warm Air Furnaces.

### RANDOM RECOLLECTIONS.

gave it up for a bad job. You see, we had been told that it would be impossible to capsize one of these small boats, owing to the peculiar shape in which they were built, they being very wide and roomy, and after over an hour's hard work in trying to prove that our information was wrong, we came to the conclusion that he knew what he was talking about.

There were quite a number of enthusiastic fishermen in our town in those years who made it a practice to angle for the flung tribe from these boats. Among the most persistent of these disciples of Isaac Walton were the late Andrew Bloomfield and his clan and partner, Pat, whose last name has escaped my memory, but who for a number of years was the general utility man around the home of Andrew Roach. These two could be seen many a day, early and late, in the hot sun or in the rain, with their boat at anchor out in mid-stream. They were some anglers, too, and seldom returned to shore without a good string of fish as a reward for their patience. W. F. Pomeroy was another enthusiastic fisherman. His favorite method was trolling with a spoon hook, and the fish he generally succeeded in catching were black bass and white bass. Levi Reissner was another, and many hours did he spend in fishing, and usually with good success. Another well-known fisherman of that period was "Teet" Roether, who, perhaps spent as much time in a boat in his efforts to catch catfish and all the other kind as did any of his fellow fishermen. And we must not forget old John A. Mell. He had a little dingy boat and could be seen on the river at almost any hour of the day. In fact, he would rather get out in his little boat and fish than saw wood.

During the years when white bass were still plentiful in the good old Maumee it was no uncommon sight to see from fifteen to twenty boats, each with two or more occupants, up on the rapids, just above the old wooden bridge, trolling for white bass with spoon hooks, the most of which had been manufactured by W. F. Pomeroy. Some of the most experienced of these fishermen returned to town with a goodly supply, while those less experienced were content with a dozen or so.

### NO REASON FOR IT.

When Perryburg Citizens Show a Way.

There can be no reason why any reader of this who suffers the tortures of an aching back, the annoyance of urinary disorders, the pains and dangers of kidney ills will fail to heed the words of a neighbor who has found relief: Read what a Perryburg woman says:

Mrs. W. B. Phillips, Sixth St., Perryburg, says: "I was in bad shape from disordered kidneys. My back ached and often sharp pains darted from my kidneys to all parts of my body. I had other symptoms of kidney complaint and finally when Doan's Kidney Pills were brought to my attention, I began using them. They brought prompt and satisfactory relief."

### Non-Speculative Investments

After 12 years of practical experience in the investment business, we have built up a net financial responsibility of more than \$2,400,000, most of which has been accumulated by re-investing our own profits in the securities we have recommended to our customers.

The reason we do this is because we believe that, so far as it is possible for human foresight to forecast the future, the 7% preferred stocks we recommend are safe investments that will pay dividends regularly until redeemed.

In our opinion, therefore, these stocks represent the best type of permanent investment—particularly as they are not subject to professional manipulation on any speculative market.

The corporations described in our new "Portfolio of Investment Securities" afford many interesting comparisons with others whose recent speculative performances have attracted much attention. We mail this publication without charge and without placing you under any obligation.

### Complimenting Papa.

Little Harry had been given a toy gun on his birthday and within an hour he had broken it. After trying in vain to mend it he called his father, who soon repaired the damage. "Papa," said Harry, "you are smarter than you look."

### Beware Inquisitive Men.

The man who is inquisitive into the secrets of your affairs, with which he has no concern, should be an object of your caution. Men no more desire another's secrets to conceal them than they would another's purse for the pleasure only of carrying it.—Fielding.

## Biliousness

**WHEN** you have a bilious attack your liver fails to perform its functions. You become constipated. The food you eat ferments in your stomach instead of digesting. This inflames the stomach and causes nausea, vomiting and a terrible headache. Take Chamberlain's Tablets. They will tone up your liver, clean out your stomach and you will soon be as well as ever. There is nothing better.
